PROFESSIONAL SUMMARY

Early-career business process and data analyst and upcoming August 2026 Software Development graduate with Ontario Public Service co-op experience in the Health Services I&IT Cluster. Supported concurrent projects and operational deliverables from intake to close-out through requirements gathering, workflow analysis, stakeholder coordination, issue and risk tracking, financial reconciliation, and governance reporting. Proficient in Power BI, Excel, SQL, and Microsoft 365, with experience translating business and data insights into dashboards, documentation, and executive presentations. Detail-oriented, adaptive, and client-focused, with strong organization and the ability to work independently.

PROFESSIONAL EXPERIENCE

Business Analyst Intern (Co-op)

Jan 2026 – Apr 2026

Ontario Public Service (OPS) – GovTechON, Health Services I&IT Cluster, CRM Branch

Toronto, ON

- Coordinated multiple project and operational deliverables from intake through close-out, gathering requirements and tracking milestones, dependencies, issues, risks, and stakeholder actions in Jira and Confluence.
- Maintained Account Plans and prepared Monthly/Quarterly Business Review and governance materials; scheduled meetings, consolidated stakeholder input, developed audience-appropriate presentations, documented decisions, and drove follow-ups.
- Reconciled and validated \$1M+ in initiative, resource, invoice, recovery, and approval records, supporting invoice processing, procurement-related tracking, cost analysis, and financial summaries for leadership.
- Improved the CRM Operational Plan Dashboard in Power BI by refining DAX measures, validating source data, applying data visualization best practices, and documenting KPI definitions to strengthen reporting consistency and data literacy.
- Analyzed service-request usage and ticket misdirection for a cross-functional LEAN initiative; mapped the workflow, identified root causes, and recommended a standardized triage process to reduce rework and improve operational efficiency.

UI/UX Designer (Co-op)

May 2025 – Aug 2025

Inspired Technologies & Business Solutions Inc.

Toronto, ON

- Conducted client discovery and requirements-gathering sessions, translated priorities into workflow maps, user journeys, process flows, wireframes, and implementation-ready Figma designs, and liaised with client, design, and development teams through delivery.

Security Officer (Part-time) Sep 2022 – Present

Allied Universal – Client Site: Digital Realty (IBM Data Centre) Markham, ON

- Support operations in a complex IBM data-centre environment by monitoring physical security, documenting incidents, coordinating escalations, and liaising with client and operations teams.
- Use Excel and Power BI to report security and operational data, maintain accurate records, and identify trends.

RELEVANT PROJECTS

<u>SecureSync – AI Governance Case Competition (2nd Place)</u> <i>Data governance Information classification Executive presentation</i> Co-developed a \$1.5M, three-year AI governance proposal using Microsoft Purview and Copilot; assessed information classification, DLP, implementation risks, financial considerations, and organizational value, then presented the recommendation to senior OPS leaders, earning second place.	Apr 2026
<u>Incident Automation & Reporting Dashboard</u> <i>Automated data pipeline KPI dashboard Data visualization</i> Built an automated reporting solution that validated incident data and visualized volume, severity, daily trends, and mean time to resolve.	Dec 2025
<u>Schedulify – Timetable Management Application</u> <i>Workflow mapping Scheduling automation Capacity planning</i> Analyzed scheduling rules and capacity constraints, tested the application, and delivered clash detection, recurring assignments, role-based views, and PDF reporting, reducing manual planning by an estimated 80%.	Aug 2025

EDUCATION, TRAINING & ACHIEVEMENTS

Honours Bachelor of Technology – Software Development <i>Seneca Polytechnic GPA: 3.6/4.0 President’s Honour List (two terms)</i> Relevant Coursework: Database Systems; Training: OPS LEAN White Belt.	Expected Aug 2026 <i>North York, ON</i>
